

K+D Pharma Total Quality

Most modern production equipment: where possible and reasonable, electronical resources are used. The main focus is quality. GMP-certified.

Pharma cartons – our passion

K+D Pharma 3D-View

- no expensive prototypes
- realistic presentation view
- the 3D-View can be sent as often as required
- no Misunderstandings arising from two-dimensional data
- line connections, logos and images verified on the assembled final product

K+D Pharma Datacenter

improves:

- communication
- information exchange
- prepress processes

Your benefits:

- individual authorisation levels
- traceable, validated and GMP compliant prepress processes
- parallel approval process
- 24x7 data availability

Mediacheck

The Mediacheck software enables us to verify the imported data 100% electronically.

The following are checked:

- overall print layout
- legibility of barcodes, EAN codes, Data Matrix codes, etc.
- braille script is converted in legible text

K+D Pharma Quality

100% inspection of folding boxes

The folding boxes are checked on all 3 Bobst Expertfold folder-gluers and faulty blanks are ejected.

Your benefits:

- smallest deviations in layout and cutting are identified
- reduction of your incoming goods to an identification control

K+D Pharma Certificate

We guarantee with our certificate of compliance that all tests have successfully passed. This considerably reduces your workload for quality inspection.
